SLIM

CWS

SLIM, the demountable monolithic all glass wall for your house, public and commercial spaces, comes in 10-12mm thickness.

A rectangular extruded aluminum profile, 27mm high, makes Slim design slender and essential. The glass securing system, complete with a sap-on pressure cover, blocks the glass sheet with high-performance acoustic balloon gaskets.

DETAILS

- Slim seamless glass system.
- Intergrates with all CWS product lines.
- 10mm or 12mm tempered or laminated safety glass.
- Sliding and hinged doors.
- Solid core wood or laminate doors.
- Framed or frameless glass doors.
- Anodized aluminum trim finishes.
- Project specific: make to order.
